** BRAZIL. 11780, UT Tue Apr 29 at 0151, token English from RNB via RNA, S5/S7 with considerable fading into local? `Brasila` SDR, English about cycles of rivers and rain in Amazonia; // 6180 is S7/S8 with some fading but less than 11780. 0153 IDs in English, Portuguese, switch to token Spanish about Belém, 0158 outro already. One needs to tune in NLT 0148 (Glenn Hauser, OK, WOR)

** BRAZIL. 28222 CW, Apr 29 at 2210, dash and VVV DE PY2XW++/B, JBA beacon but must be this despite seemingly two more letters in call, as in WGB list: ``28222.0 PY2XW/B - Campinas SP BRA GG67lb - #0/1 (17 Apr 2025) Note: 5" carrier + VVV de ID + grid 10" off``. QRZ.com: ``PY2XW Brazil flag Brazil, BEACON PROJECT 50 Mhz/28 Mhz, MANAGER, CAMPINAS - SAO PAULO, Brazil`` (Glenn Hauser, OK, WOR)

** CHILE. 28433.065 approx. USB, Apr 25 at 2210, CE7VP in Chilean Patagonia, making quick contacts with K2RLA and other US stations. QRZ.com: ``CE7VP Chile flag Chile, Javier "Javi" Capdebilla A. P.O. Box : 42, Quellón, Chiloé Island, 5790000, Chile``. Not much activity on 10m, a few phones and no beacons (Glenn Hauser, OK, WOR)

** COLOMBIA [and non]. 28493 USB, Apr 28 at 2204, QSO in Spanish between HJ6UMR and LU1VZ, tnx for the fonetix, axually get to hear both sides. One topic: satellite communications. QRZ.com:

``HJ6UMR Colombia flag Colombia, MANUEL ANTONIO CAMPUZANO ORTIZ. CL 159 7 74 AP APTO 1814. (4.735765-74.034975-FJ24PH BOGOTÁ D.C. - BOGOTÁ D.C Colombia`` [sic: apparently his G.C. and gridsquare are part of his postal address] and:

``LU1VZ Argentina flag Argentina, Radio Club Bariloche, Cdte. Luis Piedrabuena 5560, BARILOCHE (8403), RN, Argentina, For more information: http://radioclubbariloche.ar``
but it does not connect. Also had a DU accent in English on 28570 USB (Glenn Hauser, OK, WOR)

** CUBA. 15230, Apr 25 at 1440, S5/S8 of dead air from RHC, where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 6000, Apr 27 at 0206, S9+15/25 of dead air from RHC in English where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 9580, Apr 27 at 0238, S7/S9 of dead air, sked as CRI Chinese relay, 250 kW at 10 degrees this hour, as well as English 01-02. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** FRANCE. 11995, Apr 30 at 0606, African language S9/+5. EiBi shows RFI in Hausa at 0600-0630 via ISSoudun. This has a better signal than 11700 RFI in French which is 250 kW at 200 degrees. 11995 is 250 kW at 170 degrees, neither anywhere near thisaway. IIRC 11995 is a frequency inherited from Africa Number One, Gabon; remember? (Glenn Hauser, OK, WOR)

** GERMANY. 13725-13730-13735 DRM, Thu Apr 24 at 1850, DRM noise direct. Checking remotes in Qatar, Kuwait only get sporadic music, but displayed as Music for Joy, which EiBi shows: ``13730 1800-1900 Tu,Th D Music 4 Joy DIGITAL EAf n``, i.e. only two hours per week and this is one of them, via Nauen site; and off at 1900∗. KiwiSDR embedded DRM sked shows on 13730 only CNR1 Global Tests, not at this hour (Glenn Hauser, OK, WOR)

** GUATEMALA. 24985 USB, Apr 25 at 2212, TG9AHM calling CQDX. QRZ.com: ``TG9AHM Guatemala flag Guatemala, EMMANUEL H. MIERES G. (Manny), 19 CALLE 10-38 ZONA 11 COL. MARISCAL, BOSQUES DE MARISCAL, CIUDAD DE

GUATEMALA 01011, Guatemala`` (Glenn Hauser, OK, WOR)

** JAPAN. ``Hi Glenn, Regarding the QTH of JG1IGX (your log 'JAPAN. 28430 USB, Apr 23 at 2207'), I heard him before on FT8 giving the 'PM96' locator as QTH. FT8 only gives 4 chars/digits of precision. Since such a grid is relatively wide, I usually consider the approximate center (which is the closest spot from all possible locations within - theoretically, in terms of probability).

But I should have consulted the web first: his location is precisely given on qrzcq.com, as PM96ob, which is some 66 km NW of Tokyo, or 10 megameters from Enid OK, in the Saitama Prefecture, see attachment. 73s Thanks Glenn and Best Wishes, Tobias`` Germany (via Glenn Hauser, WOR)

** JAPAN. 15195, Apr 30 at 0609, NHK IS, 0610 `Sakura` theme and opening Chinese, S3 direct; odd time to start a broadcast, but Mandarin indeed scheduled at 0610-0630. Many language services last only 20 minutes now, otherwise Russian, Korean, French, Arabic, Farsi, Hindi, Urdu, Thai, as in:
https://new.hfcc.org/data/schedbybrc.php?seas=A25&broadc=NHK
(Glenn Hauser, OK, WOR)

** KOREA NORTH. 15245.24 approx., Apr 30 at 2214, JBA talk, S6/S7 with flutter, no doubt VOK Spanish as sked this hour. Aoki ignores the fact that this is perpetually off+frequency, quite a signature, but EiBi shows 15245.2, also at long hours of 07-09, 13-2350. If you do hear something on 15245.0 at other times it would be CRI or RFA Taiwan
(Glenn Hauser, OK, WOR)

** MARTINIQUE. 4812, Apr 29 at 0627, NO STANAG 4285 mush signal from FUF, Fort-de--France, not even defaulting to a plain AM carrier; but no Perú 4810 or any other broadcaster to be uncovered (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6849.92~ AM, April 27 at 0203, JBA pirate music S7. At 0347, a bit of S9+10/20 dead air. A few reports here as Liquid Radio, 6850, only between 0115 & 0230:
https://www.hfunderground.com/board/index.php/topic,144086.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 USB, Apr 27 at 0204, S7 pirate music. 0347 S9+10/20 pirate music with rapid beat, sounds much louder than 6849.9 AM station tho same S-reading. 0350 YL ID as ``You are listening to Radio 48 via Mix Radio International``. Many logs here, but was on 6875 USB at first from 2154 Apr 26:
https://www.hfunderground.com/board/index.php/topic,144071.0.html
including:

``Jr. Member ** Oklahoma City Re: Radio 48 via Mix Radio International 6925 was 6875 USB 2154 UTC 26 APR 2025 « Reply #25 on: Today at 03:27 » 6925 KHz USB, 0304z - Music - Sex type Thing followed by Alice in Chain's Rooster. Plug for Glen Hauser's World of Radio, Various "ads", Female voice ID Radio 48 with email address, Signal 55 in OKC; SIO 344. Good audio. Oklahoma City, OK. Belka DX/Eton E1/Yaesu FT-817/Yaesu FT-857/Yaesu FRG-7/Yaesu FRG-100 eQSLS appreciated! w5rst<at>icloud<dot>com``

Tony Pavick heard it even later and recorded: ``Caught them on 6925 khz USB at 0400 UT. Here's a 45 minute aircheck of varying quality:
http://popshopradio.ca/20250427_0440_UT_6925_khz_USB_Pirate_Radio_48_via_Mix_Radio_International.mp4
Tony Pavick, Hope BC Canada`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 USB, Apr 28 at 0242, pirate music at S9 = noise

level. Many logs here as WDOG, with playlists: https://www.hfunderground.com/board/index.php/topic,144163.0.html (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1460, Apr 30 at 2225 UT, KZUE El Reno ID as ``La Tremenda, 1460 AM y 97.7 FM``, and maybe then ``Radio Fórmula`` as in NRC Log for this ``group``, which shows *two* FM translators on 97.7: K249FG and K249EN. WTFDA FM Database shows K249EN also in El Reno, 250 watts vertical only, in Spanish; but mixed up about the other, K249FG in OKC, G.C. slightly south and east of the other one, which is shown as 250 W H&V, Spanish, yet ``smooth jazz``, ``The City``, which also applies to KCYI-LP, 42 watts in OKC, but axually from Edmond, ex-97.5. It seems that two translators and an LP on the same frequency in one Metro would not be viable. 97.7 is blocked here with a local in Enid. In English it`s ``Ree-noh``; would have to catch a full ID in Spanish whether they can say ``Ray-noh``. KZUE itself is a 500-watt daytimer. And does this R. Fórmula relate to the real Mexican network/brand? (Glenn Hauser, OK, WOR)

** OKLAHOMA. 95.5, Apr 30 circa 2030 UT, rock music sounds mono altho $tereo pilot is on; local quality briefly on caradio around Cleveland and west OK Garriott intersexion. By a mile east at OKG and South Van Buren, where 1670 Virtual DJ Radio dominates, 95.5 is losing out to real FM stations in the fringes: KWEN Tulsa, KWEY Clinton or KAHE Dodge City. Heard same a day or two ago and figured some car`s RF feeder, but this is apparently more permanent pirate (Glenn Hauser, OK, WOR)

** OMAN. 15310, Apr 28 at 2217, news about Palestine by W&M sounds like BBCWS, S7/S9 with flutter. Yes: relay at 22-24 daily (Glenn Hauser, OK, WOR)

** ROMANIA. 11820, Apr 27 at 0225, VG SSOB by far, S9+25/30, wild piano performance of `Danse Macabre`; 0230 RRI ID, Romanian, = no, now it`s Spanish with a Romanian language lesson. This hour only is RRI Spanish, 300 kW at 310 degrees from Galbeni (Glenn Hauser, OK, WOR)

** SAUDI ARABIA. 11935, Apr 28 at 1519, still no signal from Rep. of Yemen Radio; yet Rick Barton, AZ was hearing Arabic Apr 27 at 1430; sporadic? HFCC shows a res by RAM for something NEW at 1500-1600, 110 degrees, 300 kW from MOLDOVA. RAM = Radio-Agency-M, broker for KCH and TAC Uzbekistan sites (Glenn Hauser, OK, WOR)

** SPAIN. 15520, Fri Apr 25 at 2200, token English from SNR missing from the ME frequency, but VG S9+20/30 direct on 15500 for us, and 17715 S9+10/20 for S America, whilst 15390 for Africa is JBA. Preview topic to be about careers for women in tech, a female IT engineer to be interviewed. 2202 news leads about an ammo contract with an Israeli company worth 6.6 megaeuro has been terminated since it violated international regulations, vs genocide in Gaza. Second story: proposal to reduce working hours per week from 40 to 37.5 (Glenn Hauser, OK, WOR)

** SPAIN. 17715, 15520, 15500, 15390, Apr 28 at 2058, REE completely off the air, due to huge power failure in Iberia, checked into Maryland SDR. At 2159 direct, still nothing. John Figliozzi, however, reports they were still streaming but with a domestic network at 2200 instead of Monday English, however with French at 2230 (Glenn Hauser, OK, WOR)

** SPAIN. 15520.000+, S9/+15 and 15389.992, S9+20, April 29 at 1543 into UTwente, REE back on air in Spanish, following massive Iberian power outage; the other two, 15500 & 17715, don`t start until 1800 on weekdays. 1844, 15500 & 17715 also on, all four roughly equal into UTwente, news about Canadian elexion with voiced-over clips in

English. But if it`s Tuesday there must be no English at 2200, altho all four are still on (Glenn Hauser, OK, WOR)

** SPAIN. 17715 = 15500 > 15520 > 15390, Wed Apr 30 at 2208, all SNR frequencies active for token English, all about the blackout/apagón of Apr 28. In order here by decreasing strength direct (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007+, Apr 24 at 2238, VOT not off the air, huge S9+60 into UTwente; during WOR produxion I only look, not listen (Glenn Hauser, OK, WORLD OF RADIO 2292)

** TURKEY. 11785, Apr 25 at 2157, VOT IS & ID, but inadequate vs local noise level; slightly better on N/S interior shortwire S9+10/20 than on E/W loop S9+10. At 2206 already playing music after olds. It has been reported that VOT policy is NOT to cover news about Turkey! just anywhere else (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006+, Apr 26 at 2207 first check, VOT JBA but on the air. At 2212 into UTwente, when measured, S9+25/35. By 2257 still on air with German IDs interspersed with IS. 2300 timesignal and s/on extraneous German, but chop at 2301* Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 9875.005+, Sun Apr 27 at 2046, VOT English not off the air, S9+15/25 into UTwente, ending `The Pulse of Turkish Foreign Policy`, music. 2050 multi-lingual ID filler reel. 2053 starting `Letterbox`, hostess Seher Cemre Turan, name provided by Alan Holder, starts musing about spring, but it`s either rainy or cloudy. 4/23 is some Children`s Day, but dumps off the air at 2054* before she gets to any mail; and does not return. By 2106 I`m hearing weak Chinese: that would be VOK in Mandarin from 2100 per EiBi. I`m set to resume Lbox at 2225 on 11785 but that is also OFF the air again today. Somethings always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006+, Apr 28 at 2200, VOT not off the air, better than usual direct, S9/+10 but still insuff for armchair listening. S/on as if it`s 1230 on 17620, into olds. At 2238 into UTwente when measured, mostly music S9+30. By 2243 ``always-by-your-side`` promo, now S9+40. 2253 s/off still pretending it`s the 1230 on 17620. Something`s always awry at Ankara. 2254 IS to 2255* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Apr 29 at 2207, VOT English not off the air, but JBA S9/+20 direct. At 2246 into UTwente when measured, S9+15/25 of Turkish rock music fill. 2251 multi-lingual ID filler reel. 2253 s/off, 2254 IS first notes only once and off* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007-, Apr 30 at 2209, VOT not off the air, S8/S9 direct already in music after olds. At 2241 into UTwente when measured, S9+10, ``always-by-your-side`` promo, music; 2245 ``with-you-every-hour`` promo, music. 2253 s/off as if it`s the 1230 on 17620, IS to 2254.6*. Something`s always awry at Ankara (Glenn Hauser, OK, WOR)

** U S A. OCB STATUS Update: 4/24/25. OCB Studio Miami: Open with only 30-35 employee personnel inside building. Newscast: Now LIVE from Miami on hourly schedule. Programming Content Produced is only around 30% of airtime. More time will be added at later date. MW 1180 KHz Marathon at 100 Kw (Full Transmitter Output). On-Air 24 Hours per day

OCB SW Site-B Greenville, NC - A/C is on in building 24/7 and transmitter pumps are on - waiting power-up schedule. Some staff members are on site daily. Melvin Eleazer, Marathon`` (via Glenn Hauser, WORLD OF RADIO 2292)

** U S A [and non]. WORLD OF RADIO 2291 monitoring: confirmed UT Thursday April 24 at 0130 on WRMI 5010, S5/S7 into Georgia SDR but storm crashes.

Also confirmed Thursday April 24 at 1630 on SW Radio, Germany, 6160.000, S9+5/10 into UTwente.

WORLD OF RADIO 2292 contents: (Algeria), Australia, Brasil, Canada, Congo DR, Cuba and non, Germany, India, Indonesia, Iran, Kurdistan non, (Kuwait), Martinique, (Moldova), Mongolia, Morocco and non, Myanmar, Sa`udi Arabia, Scotland non, Turkey, UK and non, USA and non, (Uzbekistan = BBC 9670), (Yemen non); propagation outlook - (countries mentioned along with others not in order)

WOR 2292 available from 0146 UT Friday April 25
(mp3 stream) https://www.w4uvh.net/wor2292.m3u

2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Financial support appreciated for our non-commercial public service program: thanks for a generous contribution from Dan Sheedy, Encinitas, California, ``Hey Glenn, ¡Feliz cumple-whosis? Here`s $$ for World of Radio and big thanx 2 ya for all your efforts keeping DX info up 2 date [sparse as it is, sometimes] - Cheers from the beach, Dan -- PS stay safe, strong & may we all survive `25!`` - to Glenn Hauser, P O Box 1684, Enid OK 73702

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2292 monitoring: confirmed first SW BC, Friday April 25 at 1300 on WRMI 15770, S5 direct on indoor

randomwire after storms.

Also confirmed Friday April 25 at 2056 the 2030 on IRRS SW via AM Italia, 1322.995+, S8.5 into UTwente.

Also confirmed Friday April 25 at 2057 the 2030 on WRMI webcast.

Also confirmed Friday April 25 at 2218 the 2200 on WRMI 9955, S9+10/20 direct but undermodulated JBA.

Also confirmed Friday April 25 at 2242 the 2230 on SW Radio, Germany, 3975.003, S9/+5 into UTwente.

BTW, SW Radio now has a date-by-date program sked in CEST = UT+2, not showing WORLD OF RADIO - but we know it`s always the second half of the hour labeled CQ Serenade.
https://shortwaveradio.de/en/schedule_line_up

Not confirmed UT Sat Apr 26 at 0300 on WTWW 5085, which remains off the air pending repairs; WTWW-2 stream is running with something else.

NOT confirmed Sat Apr 26 at 0939 check when I happen to awaken, on WRMI 9455, despite still shown on WRMI skedgrid at 0930. 9455 is OFF at that hour. Initially after hurricane damage, some 9455 programming was shifted to 7730, but now that frequency is unWOR too, JBA sounds like TOMBS.

However, looking thru the supposedly updated WRMI skedgrid, I find a NEW WOR time I was unaware of, Sat 2230 on 15770 & 7730, to be confirmed!

Also confirmed Saturday April 26 at 1449 the 1430 on SW Radio Germany, 6160.001-, S9+5 into UTwente; and 3975 not on air yet.

Also confirmed Saturday April 26 at 1600 on WRN North America stream. Next:

1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2230 UT Saturday WRMI 7730 & 15770 to NE [NEW, to be confirmed]
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRMI 9955 to SSE [also web-, phonecast];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7780 to SW; 9455 to NW; or 7570?;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2292 monitoring: ``Thank you for World of Radio -- Hansjörg Biener. 250426 3975 1750 D SWR, E (//6160), Glenn Hauser’s World of Radio 35433 HjBi``

Also confirmed Saturday April 26 at 1730 on SW Radio, Germany, 6160.000, and 3975.001-, both S9+10 into UTwente.

Not confirmed Sat Apr 26 on WA0RCR, 1860 AM, MO, since nearby remote is offline; checked closest alternatives in IL, IA, and MO between 1900 and 2030 for the 1930v, just high noise, altho with max blanking Carterville IL gets something like talking.

Confirmed Saturday April 26 at 1930 on WRN North America webcast.

Confirmed NEW time, Saturday April 26 at 2237 the 2230 on WRMI 15770, S3/S5 direct, but listed // 7730 is JBA carrier only. At 2246 into Maryland SDR, 7730 is NOT WOR, but Supreme Master TV. Skedgrid again is self-contradictory: transmitter grid atop shows WRMI-2 on 7730 with SMTV this hour, and WRMI-9 on 15770 with TOMBS! Only the pink System H program grid below shows WOR Sat at 2230 on both those frequencies.

Also confirmed UT Sunday April 27 at 0424 on WA0RCR, 1860 AM, about 13 minutes into so started circa 0411 almost an hour later than nominal 0315v, S8/S9 into N9AZZ remote in Carterville IL as nearby Warrenton MO is still absent, and Godfrey IL is NG, nothing but noise. Earlier, Houston AMSAT net nom. 0200 did not start until 0302, following `QSO Today`. Next:

2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7780 to SW; 9455 to NW; or 7570?;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2292 monitoring: confirmed Sunday April 27 from 2131 on SW Radio, Germany, 3975.002+, S8/S9 into UTwente, and also on 6160.001-, S9/+5 but with 6164 RTTYditty which must be avoided by LSB tuning and/or narrowed bandwidth.

Also confirmed Sunday April 27 at 2334 the 2330 on WRMI 9455, S9+18/22 into N9AZZ remote in IL, while 7780 is off, and 7570 is something else! Into S Texas SDR, 7780 is also off, but 9455 also inaudible! while 7570 is TOMBS. Sked is totally upmixed, claiming WOR at 2330 Sunday be on 7570 only.

Also confirmed UT Monday April 28 at 0030 on WRMI 7780, S8/9+10 into Georgia SDR.

Also confirmed UT Monday April 28 at 0300 on Area 51 webcast only, while WBCQ 5130v has switched to music.

Also confirmed Monday April 28 at 1930 on SW Radio, Germany, 3975.003, by recording so 6160 not checked; at 2030, 3975 rates S9/+10; all into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2292 monitoring: confirmed UT Tuesday April 29 at 0330 on WRMI 7780, S9+25/40 into S TX SDR.

Also confirmed Tuesday April 29 at 1300 on WRMI 9955, S9+20 but JBA direct.

Also confirmed Tuesday April 29 at 1400 on WRMI 9955, S5/S6 even more JBA.

Missed checking Tue Apr 29 at 2000 on IRRS via AM Italia 1323. Did anyone hear it? Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2292 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard's listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees, WRMI, USA, World of Radio #2292: 9395 kHz, QRN, voice heard made out, S6 signal, 2345, 2359, April 29 UTC 2025 [Tuesday] (Lemke, Richard -AB)``

Confirmed Tuesday April 29 at 2330 on WRMI 9395, S9+20/30 into Georgia SDR.

Also confirmed Tuesday April 29 at 2331 on SW Radio, Germany, 3975.003+, S8/S9 into UTwente.

Also confirmed Wednesday April 30 at 1934 the 1930 on SW Radio, Germany, 6160.001-, S9/+10 with RTTYditty de 6164, into UTwente, and also on 3975.002- S9+5 weaker on meter but louder.

Also confirmed Wednesday April 30 at 2106 the 2100 on WBCQ 7490 -74 Hz = 7489.926, S7/S9 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Financial support appreciated for our non-commercial public service program: thanks for a generous contribution from Dan Sheedy, Encinitas, California, ``Hey Glenn, big thanx 2 ya for all your efforts keeping DX  info up 2 date - Cheers from the beach, Dan -- PS stay safe, strong & may we all survive `25!`` - to Glenn Hauser, P O Box 1684, Enid OK 73702.

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. 9930, Apr 25 at 2219 and earlier chex, as well as on Apr 24, WTWW OFF, and not found on any other frequency (Glenn Hauser, OK,

WOR)

** U S A. WTWW situation from George McClintock circa 22 UT Apr 26: 9930 back on air after some corona goop arrived to apply to insulators which were arcing. Had been absent for two or three days. I check here at 2206, and find 9930 with TOMBS is S9+40/45, but without the splatter we had been getting: maybe that was caused by the arcing. The plus/minus 12.9 kHz spurs are still there but JBA carriers only. He also says the Harris SW100 transmitter has been sold to someone who wants to go on SW, somewhere unspecified, but does not have a CP yet. The live-in operator at the site has now moved in along with his wife. The gate to the property is soon to be upgraded to automatic. Someone else is still consulting on getting the other transmitter back on the air (Glenn Hauser, OK, WOR)

** U S A. 9930, Apr 28 at 2224, WTWW is S9+50/60 with TOMBS, also some modulation audible on parasitic spurs 9917.1 & 9942.9, but no splatter beyond; same huge signal on 9980 WWCR (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Apr 25 at 2356 into NH SDR: 3265 off. 5130 S9/+10 already in IS & ID loop. 6160 else. 7490 S9+15/20. 9330 OFF at 2357, briefly presumably for antenna change. W1NT SDR is still miscalibrated so I don`t try to get exact readings, e.g. it shows 102 Hz low on WWV 20000, 50 Hz low on 10000 - I see a pattern, and BTW gets the binary ticking from 9996 RWM.

Anyhow, but 0000 UT Sat Apr 26, 9330 is back on and joined by 7490 & 5130 for WTO and opening of `AAAWWW`. His first overwords are ``OK, OK, OK, OK -- here we are, folx...`` Trimulcasting as I have observed. Explains how details of music are not his thing, zones out when people talk about performers, groups, etc, but does like certain music; not much jazz, but blues is better. Angela also discusses. By 0009 I hear ``moonbats`` so I know they are into far-right politix, that`s enough. Later something about Jason wanting to change format on their FM station. 0020 a song they do like, `Riverboat Fantasy` which includes some nasty words. 0024 datestamp. 0027 `Star Spangled Banner` jazzed-up; Jimi? 0047 reading reception reports/email already (Glenn Hauser, OK, WOR)

** U S A. 15770, Apr 28 at 2219, S9+10/20 of dead air, or maybe trace of mod? WRMI-9 is supposed to be R. Taiwán Internacional on System H (Glenn Hauser, OK, WOR)

** U S A. 7780, Apr 28 at 2333 check, WRMI-13 is still off, like it was yesterday when WOR might have aired. Xmtr skedgrid shows on air only at 00-04, which could be currently correct. For months it had been coming up at 2300 (Glenn Hauser, OK, WOR)

** U S A. 9955, Apr 29 at 0620, this WRMI is off, so less TOMBSing. Not just propagation as 9395 WRMI is S9+5 (Glenn Hauser, OK, WOR)

** U S A. 9955, Apr 30 at 0603, WRMI off again instead of TOMBS. Reply to my obs yesterday: ``WRMI latest schedule, Overcomer overnight Saturday & Sunday only now. Peter W Hansen``. I think it has been confusingly labeled like that for a long time, despite really running 9955 all night every night (Glenn Hauser, OK, WOR)

** U S A. 15150, April 24 at 1427, WMLK at S9+20 direct but NO spurs for a change every 4 kHz above and below (Glenn Hauser, OK, WOR)

** U S A. 15150, April 25 at 1442, WMLK is S9, but fails to accompany itself with panoply of spurs at 4 kHz intervals as I heard before out to 15130/15166, outdone by Wolfgang Bueschel who heard them from 15122 to 15178. Something`s not botched at Bethel (Glenn Hauser, OK, WOR)

** U S A. 750, April 24 at 0605 UT, Spanish gospel music covering WSB, so KMMJ Grand Island NE still refusing to stay off during the Atlantan night (Glenn Hauser, OK, WOR)

** U S A. 1480, April 27 at 0320 UT, Vietnamese, and also 1560 in Vietnamese, but definitely not //, one OM, other YL, or music. 1480 is KNGO Dallas, U4 50/1.9 kW; 1560 is KGOW Bellaire TX, U4 46/15 kW, both the only two members of the Group, besides a translator, `Viet Radio` as defined by NRC AM Log. Website certainly implies they are //, Houston being primary:
http://vietradio.com/
(Glenn Hauser, OK, WOR)

** U S A. ``Glenn, to clarify what is going on with KGBC 1540:

KGBC in Galveston is the nominal “originating station” for K287BQ 105.3 in Houston, running a Spanish language Tropical format “Power 105.3”. Both signals are leased by the programmers of the “Power” format.

KTWL 105.3 runs a Texas Country format. There is no actual connection between them and KGBC or K287BQ or the “Power” format. Those behind the “Power” format unsuccessfully attempted to buy KTWL a few years ago, and have claimed it as an originating station, which is not the case. There is also no connection with KKBQ or any of its subchannels; the KKBQ HD-3 runs a “Red Dirt Country” format. The “Power” legal ID is mostly fiction.

This is Houston, well known for various shenanigans among translator and LPFM operators. Stephen Luce, Houston, Texas`` (via Glenn Hauser, WOR)

** U S A. 1590, Apr 28 at 0634 Mexmx and ID as ``Ambiente Clásico Radio``, so it`s WCGO Evanston IL, as heard last September 3 at 0707. It`s not 100% with this slogan, nor even 100% Spanish; and surely my unID of Apr 22 (Glenn Hauser, OK, WOR)

** VANUATU [non]. 9960, Apr 26 at 0647, NO signal from RV, so another schedule shuffle? Not audible either on 7260 or 3945 at 0650, but at 0652, JBA carrier on 7890, where 3945 used to accomplish a second harmonic, since suppressed, and probably something else now. 9955 WRMI is also off at 0647 (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Apr 27 at 0545, RV again missing from 9960, nor 7260, 5040, 7890. Ron Howard replies to my previous report: ``Hi Glenn, April 26 also noticed the absence of Radio Vanuatu. April 27, via various remotes, when checking at 0415 UT, on 2485, 3945, 5040, 7260 or 9960, found no Vanuatu signal. Have contacted the station! Ron, Monterey, Calif.`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Apr 28 at 0559, JBA carrier so RV is back on. Ron Howard replied to my yesterday report of its offness: it seems that VBTC is notified about outages by him before any one of the 335,169 Vanuatuans!

``Hi Glenn – Here is the reply to my email (received 2144 UT, April 27) and my subsequent log:

"Hi Ron, Thank you for that. If you have time today can you check again please.
Thanks, Warren Robert

- - - - - - My remote log via NZ: April 27, at 2158 UT, heard Radio Vanuatu on 9960, back on the air again; Whitney Houston singing "Where Do Broken Hearts Go" and weather report; was in French at 2215. Nice to have them back again, and am grateful that he always seems able to fix whatever the problem is in a timely manner. Emailed him back, confirming reception. Ron, Monterey, Calif.``

And follows up the next day April 28: ``Hi Glenn - Noticed Radio Vanuatu at 0702 UT, now on 3945. Ron`` so switching again 0658/0659 (Glenn Hauser, OK, WOR)

** VANUATU. 9960, April 29 at 0630, RV island music S8/S9, while 9955 WRMI is OFF, tho rarely a problem for RV. Meanwhile, Ron Howard reported the day before:

``9960, Radio Vanuatu at 0448+ UT, April 28, via Palmerston North, NZ, Kiwi SDR remote; ABC Australia's "Pacific Beat" one hour segment in English; mostly about the recently deceased Catholic Pope, but also sports news (football), etc.; nicely readable. My remote audio - https://app.box.com/s/5xlviprq1z9wazihymwzzrzlx0rjzq20
Ron, Monterey, Calif.`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, April 30 at 0603, R. Vanuatu in presumed Bislama talk, S6/S9 direct. But soon gone again:

``Hello all, 30/04, around 0834 all R. Vanuatu's known frequencies are off. 2485, 3945, 5040, 7260, 7890, 9960, 11835. Checked in various remotes in AUS and NZL. 73 Lúcio Otávio Bobrowiec, Brasil``

``Greetings, Lúcio, from California. Thanks for monitoring! Yes, at 0910+ UT (April 30) also noticed no SW signal (3945, etc.) from Radio Vanuatu, via various NZ remotes. Another power outage? Have sent an email to the station. Ron (Monterey, Calif.)``

``Hello Ron, it happened 29/04 too, check around 0850 in various remotes in AUS and NZL. Lúcio, Brasil, 73`` (Glenn Hauser, OK, WOR)

** YEMEN [non]. 11935v, Apr 24 at 1635-1645, Republic of Yemen Radio via SAUDI ARABIA missing, no signal into UTwente, following this from Zacharias Liangas: ``Just 1056 checked 11935 starting from Addis Ababa  Riyadh and Cyprus kSDR with no signal for the Yemeni station also and after 11z`` Then I check former frequencies into UTwente: 11915 ex-11820, ex-11860, and not there either or something else now. Then I make cursory check of every frequency 11700-12000 and still no ROYR (Glenn Hauser, OK, WORLD OF RADIO 2292)

** YEMEN [non]. 11935, Apr 29 at 1542, no signal from ROYR via SAUDI ARABIA, where alternatively filed. Ron Howard replied to my report yesterday: ``Hi Glenn - On April 29, I'm hearing an Arabic station on 11935.0 kHz, but transmitter occasionally, briefly cutting off and quickly back on again, but with good audio quality. Assume Rep. of Yemen Radio, being heard via Kiwi SDR remote at Doha, Qatar. My remote audio {at 1315; Yemen mentioned at 1:41 into the 2:00 minutes}: https://app.box.com/s/tu718it1im8i2zk8q95b52dqbmrs9oc6
Ron, Monterey, Calif.`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 660.83 approx., Apr 28 at 0252 UT, JBA carrier hetting

660.0 stations. Local or DX? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 771 kHz, Apr 28 at 0247 UT, JBA carrier making het with 770.0, KKOB or whatever. Another Cuban anomaly, like 1141? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 869.62, Apr 25 at 0536 UT, carrier hetting 870, vs high storm noise level on indoor randomwire. Unlike some other mysteries, suspect this may be of household or neighborhood origin, never heard before. But to note whether anybody else detect or I hear it again under other circumstances – such as not heard in the daytime (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1130, Apr 27 at 0340 UT, tone of about 700 Hz mixing with KLEY/KWKH, rock/stupid sports talk, so a third station? then 0342 drops to 670 Hz or so and disappears. I was hoping for a satellite feed filler ID (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1200 kHz, Apr 28 at 0627 UT, praise music in English overcomes WOAI. NRC AM Log most likelies: WMUZ Taylor MI U4 50/15 kW; KFNW West Fargo ND U4 50/13 kW. Both with totally northward night lobes, but KFNW has a lesser daytime lobe southward (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1590, Apr 28 at 0622 UT, mention in English of ``630 CJAB`` sounds like. There is no CJAB on 630 or anywhere on MW, maybe CHED? But no Canadians on 1590. May have been something else completely, commercial, not callsign. This was just before WCGO log in Spanish (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7656.0, April 30 at 0616, open carrier S7/S9 except for some clix at irregular intervals, maybe about 23 per minute; and clix audible out to this range: 7643/7666. What is this? Among several spots doing the same ending in –6. This one also logged March 24, q.v. (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9119–9164 approx., Apr 24 at 0622, multi-carrier, multi-tones beating over this range, S9+18 amid, like 24 hours earlier 9176–9224. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11935.0, Apr 27 at 1455, JBA carrier direct. Could Yemen via Saudi be back? Not checked UTwente until 1538, nothing. Nor anything at this hour in Aoki or EiBi, but HFCC as of Apr 25 has an entry, quite possibly wooden:
11935 1500 1600 40E,41 KCH 300 110 0 156 1234567 300325 251025 D Mul MDA NEW RAM 3824 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15070–15093 approx., range of OTH radar rapid clickery, Apr 29 at 0135 (Glenn Hauser, OK, WOR)

TIPS FOR RATIONAL LIVING

DOONESBURY is back in the Enid News & Eagle Sun Apr 27: apparently CNHI censorship of this is not permanent. This one can hardly be construed as critical of His Magasty; about UFOs. The first two panels are skipped; I`ve noticed this happening with some other strips which seem to be configured so that the first two panels are optional. The current one appears here only for a while:
https://www.washingtonpost.com/doonesbury/
